UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 8-K

CURRENT REPORT

PURSUANT TO SECTION 13 OR 15(d) of the

SECURITIES EXCHANGE ACT OF 1934

Date of Report (Date of earliest event reported) 24 January 1996

Air Products and Chemicals, Inc. (Exact name of registrant as specified in charter)

Delaware	1-4534	23-1274455
(State of other jurisdiction of incorporation)	(Commission file number)	(IRS Identification number)
7201 Hamilton Boulevard, Allentown, Pennsylvania	18195-1501	
(Address of principal executive offices)	(Zip Code)	

Registrant's telephone number, including area code (610)-481-4911

Item 5. Other Events.

2

On January 24, 1996, the Registrant announced it has reached a \$67 million settlement with Bankers Trust Company over \$107 million in losses Air Products reported in fiscal 1994 associated with leveraged interest rate swap contracts it entered into between October and December 1993. The settlement includes the termination of two previously closed contracts with Bankers Trust. Under a confidentiality agreement between the two parties, other terms and conditions of the settlement were not made public.

The settlement will result in a gain of approximately \$40 million after taxes and will be reflected in the company's second fiscal quarter ending March 31, 1996.

The Registrant reported net income of \$89 million, or 80 cents per share, for the first quarter ended December 31, 1995, compared to last year's \$87 million, or 77 cents per share, a per-share increase of 4 percent. Sales of \$947 million were up 3 percent versus \$921 million last year.

Commenting on the first quarter's results, Air Products Chairman H. A. Wagner said, "Our first quarter proved to be a difficult one. We are pleased that our chemicals business could replace the ammonia profits made last year prior to exiting the merchant market. In addition, our equipment business returned to profitability, capitalizing upon the active sales efforts undertaken over the past few years. Slower volume growth and higher costs in our U. S. gases business, however, impacted overall results."

Industrial gas sales for the quarter increased 5 percent, while operating income was down 5 percent. Worldwide merchant and tonnage volumes were up from a year ago, despite unexpected U.S. tonnage customer outages. However, the rate of growth has slowed from previous quarters. Merchant prices in the U.S. continued to improve. Operating costs--while lower than the previous quarter--were still higher than last year. Prices across Europe were mixed, but have improved in the United Kingdom during the last three quarters. Strong performance from our joint ventures in southern Europe and

Asia contributed to the quarter's results. The prior year results also included a loss related to the peso devaluation in our Mexican investment.

In chemicals, first quarter sales decreased 4 percent, and operating income equaled last year's results. Margin improvements across the businesses offset the loss of profits from exiting merchant ammonia in last year's second quarter and a decline in methanol pricing.

 $% \left({{{\rm{Profits}}} \right)$ for the environmental and energy systems business were down slightly from a year ago.

The equipment and services segment reported significantly higher sales and operating income for the quarter due to increased business activity, including additional liquefied natural gas heat exchanger orders.

Looking ahead, Mr. Wagner said, "We are currently enjoying a firm pricing environment in both gases and chemicals, but given the outlook for moderating economic growth rates in 1996, we remain cautious in the near term. We are confident, however, we will continue to deliver earnings growth, although at rates below recent trends."
