UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 8-K

CURRENT REPORT

PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Date of Report (Date of earliest event reported) 22 October 1998

Air Products and Chemicals, Inc.

(Exact name of registrant as specified in charter)

Delaware 1-4534 23-1274455

(State of other jurisdiction of incorporation) (Commission file number) (IRS Identification number)

7201 Hamilton Boulevard, Allentown, Pennsylvania

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code (610) 481-4911

Item 5. Other Events.

The Registrant reported record income from operations of \$128 million, or diluted earnings per share of 59 cents, for the fourth quarter ended september 30, 1998. This compares to last year's \$107 million, or 48 cents per share, a per-share increase of 23 percent. Sales of \$1.3 Billion were up 3 percent versus \$1.2 Billion last year.

In reviewing the quarter, Air Products Chairman H. A.Wagner said, "We are very pleased with our outstanding fourth quarter performance, which caps our second strong year in a row. Each of our business segments reported higher profits."

Industrial gas sales increased 5 percent while operating income rose 11 percent. European merchant volume were solid, while U.S. volume growth remained modest. Tonnage HYCO volumes in the U.S. reflected reduced spot business and lower customer takes. In Europe, tonnage volumes were higher from demand on new facilities serving the chemical process industries. The worldwide gases operating margin improved against prior year and last quarter, as lower costs and productivity

gains in both the merchant and tonnage business more than offset a decline in merchant gas pricing. Gas equity affiliate income was higher due to tax benefits in Italy.

Air Products' chemicals business continued to perform well in the quarter, overcoming the impact of weaker Asian export markets. Sales were up modestly, while operating income increased 34 percent, driven by fewer plant turnarounds, volume gains, and continued productivity.

Equipment and Services completed an outstanding year, with operating income up due to favorable cost performance.

Corporate and Other segment results reflect the absence of profits from the Company's divested American Ref-Fuel joint venture.

For fiscal 1998, Air Products reported record income from operations of \$489 million, or \$2.22 per share, versus \$429 million, or \$1.91 per share, for the same period last year, an increase of 16 percent. These results exclude after-tax gains in the current year of \$58 million, or 26 cents per share, on the sale of our 50 percent interest in American Ref-Fuel Company, a related power restructuring, and a contract settlement on a cogeneration project. Sales of \$4.9 billion, also a record, were up 6 percent over the prior year.

Commenting on the year, Mr. Wagner said, "1998 was an excellent year for Air Products. We set records in financial measures that matter -- sales, net income, earnings per share, return on equity, and cash flow. Excluding one-time gains, our 16 percent growth in earnings per share, and 18.6 percent return on equity, exceeded our long-term goals of 12 percent and 15 percent, respectively. Equally important, our operating return on net assets improved from 11.1 percent to 12.3 percent for the year. Plans we set in motion over the last few years are hitting their stride, and our results reflect it.

Wagner concluded, "We enter 1999 more resilient than most to changes in the economic environment, but certainly not immune. Though we expect continued profitable growth next year, moderating growth in the U.S. economy, the situation in Asia, and a slowing in our equipment business will make it difficult to meet our trendline target of 12 percent earnings growth. While we obviously cannot control changes in world economies, we will take the necessary steps to make certain we control those things we can. Through the right balance of top-line growth, sustainable cost control, and asset management activities, Air Products remains well positioned to meet our long-term financial objectives."

NOTE: The forward-looking statements contained in this document are based on current expectations regarding important risk factors. Actual

results may differ materially from those expressed. Important risk factors and uncertainties include the impact of worldwide economic growth, pricing of both the Company's products and raw materials such as electricity, and other factors resulting from fluctuations in interest rates and foreign currencies, the impact of competitive products and pricing, continued success of work process programs, and the impact of tax and other legislation and other regulations in the jurisdictions in which the Company and its affiliates operate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In December 1997, the Company sold its 50% interest in American Ref-Fuel Company, its former waste-to-energy joint venture with Browning-Ferris Industries, Inc. (BFI), to Duke Energy Power Services and United American Energy Corporation. This transaction provided for the sale of Air Products' interest in American Ref-Fuel's five waste-to-energy facilities for \$237 million, and the assumption of various parental support agreements by Duke Energy Capital Corporation, the parent company of Duke Energy Power Services. The income statement for the twelve months ended 30 September 1998 includes a gain of \$62.6 million from this sale, (\$35.1 million after-tax or \$.16 per share). Fiscal 1997 results included equity affiliates' income related to American Ref-Fuel of \$21.4 million before taxes of which \$2.3, \$.8, \$9.6 and \$8.7 million was included in the first through fourth quarters respectively.

Air Products retained a limited partnership interest in an American Ref-Fuel project that was undergoing a power contract restructuring. The restructuring was completed in June 1998. The twelve months ending 30 September 1998 includes a gain, net of transaction costs, of \$28.3 million (\$15.4 million after-tax or \$.07 per share).

The results for the twelve months ended 30 September 1998 also include a gain of \$12.6 million from a cogeneration project contract settlement (\$7.6 million after-tax or \$.03 per share).

On 6 May 1998, the Company's Board of Directors approved a two-for-one stock split. The additional shares were issued on 15 June 1998, to shareholders of record on 15 May 1998. The earnings per share and shares outstanding amounts for the prior year have been restated to reflect the stock split.

The Company completed the sale of the landfill gas recovery business, GSF Energy Inc., during the three months ended 31 December 1996. A gain of \$9.5 million (\$5.9 million after-tax, or \$.03 per share) was recorded.

During the three months ended 31 December 1996, an impairment loss of \$9.3 million (\$6.0 million after-tax, or \$.03 per share) was recorded in the chemicals segment. The write-down was related to production assets in the performance chemicals division and the related goodwill.
