REMARKS:

The consolidated financial statements of Air Products and Chemicals, Inc. and its subsidiaries (the "Company" or "Registrant") included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of the Company, the accompanying statements reflect all adjustments necessary to present fairly the financial position, results of operations and cash flows for those periods indicated, and contain adequate disclosure to make the information presented not misleading. Such adjustments are of a normal, recurring nature unless otherwise disclosed in the notes to consolidated financial statements. However, the results for the periods indicated herein reflect certain adjustments, such as the valuation of inventories on the LIFO cost basis, which can only be finally determined on an annual basis. It is suggested that these consolidated condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

Results of operations for any three month period are not necessarily indicative of the results of operations for a full year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Effective 1 October 1993, the company adopted Statement of Financial Accounting Standard (SFAS) No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions," SFAS No. 109, "Accounting for Income Taxes," and SFAS 112, "Employers' Accounting for Postemployment Benefits." The cumulative effect of these accounting changes on years prior to fiscal 1994 is included in net income of the three months ended 31 December 1993. Prior year financial statements have not been restated to apply the provisions of these standards. The impact of these accounting changes on income for the three months ended 31 December 1993, exclusive of the cumulative effect as of 1 October 1993, is not material.

POSTRETIREMENT BENEFITS OTHER THAN PENSIONS

The company provides health care and life insurance benefits for certain retired domestic employees until the age of 65 and their covered dependents.

On 1 October 1993, the company adopted SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions." SFAS No. 106 requires the company to accrue the costs associated with providing postretirement benefits during the employees' applicable years of service. Prior to adoption of SFAS No. 106, the company recognized the cost of providing postretirement benefits as incurred. Upon adoption of this standard, the company recognized the transition obligation as the cumulative effect of an accounting change.

The unrecognized liability (accumulated benefit obligation) for postretirement benefits as of 1 October 1993 was \$50.6 million. Recognition of this liability as an accounting change resulted in a \$31.3 million one-time reduction in net income after consideration of the income tax effect. The net periodic postretirement benefit cost for the three months ended 31 December 1993 was \$1.9 million.

Presented below is the amount recognized in the company's consolidated balance sheet on 1 October 1993:

(IN MILLIONS)

	1 OCT 1993
Actuarial present value of benefit obligation:	
Retirees	\$21.0
Fully eligible active employees	11.4
Active employees not eligible to retire	18.2
Accumulated postretirement benefit obligation	\$50.6

The accumulated postretirement benefit obligation was determined using a discount rate of 7.5%. The assumed heath care cost trend rate is 11.5% in 1994; the rate is assumed to decrease ratably to 6% by the year 2004 and remain at that level thereafter. Increasing the health care cost trend rate by one percentage point would increase both the accumulated postretirement benefit obligation and the net periodic postretirement benefit cost for fiscal 1994 by approximately 4%. The company's various health care programs include different cost-sharing features such as participant contributions, deductibles and copayments, and limits on the company's annual cost.

7 POSTEMPLOYMENT BENEFITS

On 1 October 1993, the company adopted SFAS No. 112, "Employers' Accounting for Postemployment Benefits." SFAS No. 112 requires that employers accrue the cost and recognize the liability for providing certain benefits to former and inactive employees after employment but before retirement. The company previously recognized these benefits as expense as the cost was incurred. Upon adoption of this standard, the company recognized the transition obligation as the cumulative effect of an accounting change. The unrecognized liability for postemployment benefits as of 1 October 1993 was \$16.7 million. Recognition of this liability as an accounting change resulted in a \$10.3 million one-time reduction in net income after consideration of the income tax effect.

INCOME TAXES

On 1 October 1993, the company adopted SFAS No. 109, "Accounting for Income Taxes." The standard provides for income tax accounting under the liability method which bases the amount of deferred taxes payable on the events recognized in the financial statements and on tax laws existing at the balance sheet date. Upon adoption, the company recognized the cumulative effect of this accounting change, a net income benefit of \$55.9 million, in the income statement. The new standard is not expected to have a significant effect on annual income tax expense, except when there are significant changes in statutory rates. The cumulative impact of a future tax rate change will be included in the income tax expense of that period.

The components of the deferred income tax assets and liabilities as measured under SFAS No. 109 at 1 October 1993 are listed below.

(IN MILLIONS)

	1 OCT 1993
Gross deferred tax assets Pension & other compensation accruals Tax loss carryforwards Alternative minimum tax Reserves and accruals Severance Plant and equipment Postretirement benefits Inventory Other Valuation allowance	\$ 43.4 38.2 37.4 22.7 21.4 21.0 19.3 11.2 21.8 (25.7)
Deferred tax assets	210.7
Gross deferred tax liabilities Plant and equipment Investment in partnerships (principally plant and equipment) Pension & other compensation accruals Other	474.5 100.4 13.6 11.5
Deferred tax liabilities	600.0
Net deferred income tax liability	\$389.3

All other disclosures required under SFAS No. 109 are consistent with the company's 1993 annual report and Form 10-K disclosures.

8 OTHER NOTES

During the first quarter of fiscal 1994, the company recognized an after-tax benefit of \$2.3 million, or \$.02 per share, from the favorable tax treatment, net of expense, of a charitable contribution of the remaining shares of a stock investment in an insurance company. This transaction reduced the effective tax rate from 33.6% to 30.0% for the three months ended 31 December 1993.

The results for the three months ended 31 December 1992 included a gain of 6.7 million (4.2 million after tax, or 0.4 per share) from the sale of a business venture and the partial sale of stock options in an insurance company.

During the first quarter of fiscal 1994, the company established a trust to fund a portion of future payments to employees under the company's existing compensation and benefit programs. The trust, which is administered by an independent trustee, was funded with 10 million shares of treasury stock.

AIR PRODUCTS AND CHEMICALS, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

FIRST QUARTER FISCAL 1994 VS. FIRST QUARTER FISCAL 1993

RESULTS OF OPERATIONS

Consolidated

Sales in the first quarter of fiscal 1994 of \$827.3 million rose 2% while operating income of \$120.8 million declined \$3.4 million, or 3%. Profits of equity affiliates increased \$6.7 million to \$6.3 million for the three months ended 31 December 1993. Income before the cumulative effect of accounting changes was \$75.1 million, or \$.66 per share, in the first quarter of fiscal 1994 compared to \$69.0 million, or \$.61 per share, in the same quarter of last year. The company recognized the cumulative effect of accounting changes of \$14.3 million, or \$.12 per share, from the required adoption of three new accounting standards in the first quarter of fiscal 1994. Net income was \$89.4 million, or \$.78 per share, compared to \$69.0 million, or \$.61 per share, in a year-ago quarter. The current period's results included an after-tax benefit of \$2.3 million, \$.02 per share, from the favorable tax treatment, net of expense, of the charitable contribution of the remaining shares of a stock investment in an insurance company. The first quarter of the prior year included an after-tax gain of \$4.2 million, or \$.04 per share, from the sale of a business venture and the partial sale of a stock investment in an insurance company.

Fiscal 1993 operating income of the industrial gases segment and corporate and other have been restated to reflect the current year presentation of Brazilian conversion gains related to U.S. dollar denominated investments. These gains were reclassified from interest income to foreign exchange gains/losses. For the three months ended 31 December 1992, operating income of the industrial gases segment was reduced by \$2.1 million with a corresponding increase in corporate and other. For the year ended 30 September 1993, this reclassification will reduce operating income of the industrial gases segment by \$12.3 million.

Segment Analysis

Industrial Gases - Sales of \$471.8 million in the first quarter of fiscal 1994 increased 5% while operating income of \$92.9 million was up 2%, or \$1.9 million. In the United States and Europe, volumes of most major product lines of merchant gases increased although pricing pressures continued worldwide. Merchant gas margins in Europe declined primarily due to lower selling prices. The on-site gas business achieved solid results, about equal to the high level of the first quarter of fiscal 1993. Excluding currency effects, sales of the segment rose 8%.

Equity affiliates' income was \$1.0 million for the first quarter of fiscal 1994 compared to a loss of \$1.6 million last year. A greater share of profits from an increased ownership position in Mexico and improved results from the Spanish joint venture were the key factors for the higher results.

Chemicals - Sales in the first quarter of fiscal 1994 of \$271.4 million rose 4% and operating income of \$31.8 million increased 6%, or \$1.9 million. Volumes in most major product lines were higher. Ammonia and methanol margins improved substantially as a result of higher prices and lower natural gas costs during the quarter. However, margin pressures continued in the polyvinyl alcohol business.

Environmental and Energy - Sales declined \$9.4 million to \$14.3 million in the first quarter of fiscal 1994 principally as a result of an equipment sale associated with the construction of a cogeneration facility for an unconsolidated affiliate in the year-ago quarter. Operating income for the first quarter of 1994 was \$.2 million compared to a loss of \$1.9 million in a year-ago quarter. Operating services provided to cogeneration facilities and lower expenses associated with the landfill gas business were the principal factors contributing to the favorable income variance in the current year.

Equity affiliates' income for the first quarter of fiscal 1994 was \$5.4 million compared to \$1.2 million in the prior year. The improved results reflect the stronger operations at cogeneration and waste-to-energy facilities and the recently acquired waste-to-energy facility in New York.

Equipment and Technology - Sales of \$69.8 million declined \$11.8 million from the exceptionally high level of the first quarter of fiscal 1993 while operating income was down \$7.8 million to \$7.2 million. The year-ago quarter included a gain of \$3.9 million from the sale of a business venture. Manufacturing activity in the cryogenic gas separation equipment business declined from the prior period.

Corporate and Other - The net expense was \$11.3 million compared to \$9.8 million in the first quarter of the prior year. The current period results include an expense of \$2.3 million from the charitable contribution of the remaining shares of a stock investment in an insurance company. The results of the prior period included a gain of \$2.8 million from the partial sale of stock options in this insurance company. Exclusive of these items, corporate expenses declined due principally to lower foreign exchange losses.

TNTEREST

Interest expense declined \$1.7 million to \$19.8 million in the first quarter of fiscal 1994. The impact of lower rates combined with higher capitalization of interest more than offset the increase in expense due to the higher level of average debt outstanding.

INCOME TAXES

The effective tax rate on income was 30.0% for the quarter ended 31 December 1993 compared with 32.5% for the same quarter in fiscal 1993. The effective tax rate for the three months ended 31 December 1993 reflects the favorable tax treatment of the charitable contribution of the remaining shares of a stock investment in an insurance company. The tax benefit associated with this contribution, based on fair value of the investment, was \$4.6 million. This transaction reduced the effective tax rate from 33.6% to 30.0% for the three months ended 31 December 1993. The increase in the effective tax rate from 32.5% to 33.6% was due principally to an increase in the federal statutory rate

LIQUIDITY AND CAPITAL RESOURCES

Capital expenditures during the first three months of fiscal 1994 totaled \$140.0 million compared to \$261.4 million for the corresponding period of the prior year. During the first quarter of fiscal 1993, the company increased significantly its minority ownership position in a Mexican affiliate. Additions to plant and equipment were \$128.8 million in the first quarter of fiscal 1994 versus \$103.5 million in the corresponding prior period. Capital expenditures for new plant and equipment and investment in unconsolidated affiliates are expected to be in the range of \$600-700 million in 1994.

Cash provided by operating activities during the first three months of fiscal 1994 (\$111.7 million) combined with cash provided by long-term debt and additional commercial paper (\$32.5 million and \$24.5 million, respectively) were used largely for capital expenditures (\$140.0 million), payments on long-term debt (\$35.1 million), cash dividends (\$26.2 million), and the repurchase of treasury stock (\$22.6 million). Cash and cash items decreased \$65.5 million to \$172.9 million at 31 December 1993.

Total debt, expressed as a percentage of the sum of total debt and shareholders' equity, was 37% at both 31 December 1993 and 30 September 1993. Total debt at 31 December 1993 was \$1,249.6 million, approximately equal to total debt at 30 September 1993 of \$1,251.0 million.

There was \$159.5 million of commercial paper outstanding at 31 December 1993. Domestic lines of credit totaled \$325.0 million. Additional commitments totaling \$128.4 million are maintained by the company's wholly owned subsidiaries, of which \$1.8 million was utilized at 31 December 1993.

At 31 December 1993, the company had unutilized shelf registrations for \$250 million of long-term debt securities and \$126 million of medium-term notes.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY-HOLDERS

- (a) The Annual Meeting of Shareholders of the registrant was held on 27 January 1994.
- (c) The following matters were voted on at the Annual Meeting:
 - (1) Election of Directors
